**COMPARATIVE OPERATING COST ANALYSIS:
EXECUTIVE SUMMARY AND NOTES**

Introduction

In the following analysis, major operating costs scaled to a representative 250-worker distribution warehouse are presented for a series of 20 regional locations in the U.S and Canada. Annual operating cost totals are ranked in summary Exhibit 1 and range from a high of \$21.3 million in the Meadowlands/Northern New Jersey Region to a low of \$13.3 million in the Eastern Ontario Region of Canada.

Annual operating costs were projected solely for comparative purposes, with only major geographically-variable factors being considered. Those costs not varying significantly with geography, including relocation and start-up expenses, were not considered. The Boyd analysis focuses on those key geographically-variable cost elements considered to be most pivotal within the warehouse site selection process. All costs are in U.S. dollars at an exchange rate of .7500.

Warehouse operating costs are scaled to a hypothetical 500,000 sq. ft. facility employing 250 hourly workers and shipping over-the-road to a Northeast U.S. and Eastern Canada regional market. The analysis provides an independent and authoritative point of reference for the assessment of comparative operating cost levels in each of the surveyed locations. The format of the cost exhibits will allow a further tailoring of warehouse specifications, shipping patterns and staffing levels to reflect alternate scales of operation and market reach of the hypothetical warehouse facility.

Comparative Warehouse Locations

For purposes of comparative economic analysis, major geographically-variable operating costs have been projected for the following 20 locations, all housing current and emerging concentrations of distribution warehousing activity in the Northeast U.S. and Eastern Canada market region.

COMPARATIVE WAREHOUSE LOCATIONS

- Danbury/Southern CT Region
- Windsor/Northern CT Region
- Dover/Central DE Region
- Hagerstown/Western MD Region
- Pittsfield/Western MA Region
- Springfield/Central MA Region
- Stoughton/Southeast MA Region
- Worcester/Southeast MA Region
- Concord/Southern NH Region
- Bridgeport/Southern NJ Region
- Cranbury/Central NJ Region
- Meadowlands/Northern NJ Region
- Newburgh/Hudson Valley NY Region
- Schenectady/Upstate NY Region
- Syracuse/Upstate New York
- Eastern Ontario Region
- Camp Hill/Central PA Region
- Lehigh Valley Region PA Region
- Pittsburgh/Western PA Region
- York/Southeast PA Region

Comparative Nonexempt Labor Costs

Annual costs for hourly labor, including material handling, order filling, clerical, maintenance and selected other typical warehouse functions, are presented in Exhibit II. Costs are based on a representative mix of job descriptions for the model 250-worker distribution warehouse.

Comparative labor costs for management were not included as these costs would tend not to vary as significantly by geography, but rather by individual company compensation practices. Fringe benefit costs are included as a percent of annual base payroll costs and are assumed to include all statutory benefits, pay for time not worked, and company-sponsored benefits.

Comparative Electric Power Costs

Comparative annual electric power costs are presented in Exhibit III. Annual costs reflect industrial rate schedules of the respective utilities serving each of the 20 surveyed areas.

Comparative Land Acquisition and Construction Costs

Exhibit IV presents comparative costs for the purchase of industrially-zoned land and the construction of new warehousing space in each of the 20 surveyed locations.

Comparative Ad Valorem and Sales Tax Costs

Exhibit V presents comparative ad valorem (property) tax costs in each of the 20 surveyed sites scaled to the land and building specifications of the model warehouse. Also presented in this exhibit are comparative local and state sales tax costs based on a fixed annual purchase of warehouse supplies, furnishings, equipment, and other taxable goods.

Comparative Shipping Costs

Transportation costs from each of the 20 surveyed sites to a designated Northeast U.S. and Eastern Canadian regional market are detailed in Exhibit VI. Comparative costs reflect over-the-road shipments in truckload lots.

Total Annual Operating Cost Ranking

Taken from summary Exhibit I is an overall cost ranking of the 20 surveyed distribution warehouse locations.
